BRUT NATURE 2017

CORPINNAT

THE CAN MARTÍ ESTATE

The Can Martí estate belongs to the Torelló family since 1395 (14th century) and occupies 135 hectares in Gelida (Alt Penedès). The soils are clay-calcareous (limestone) and 80 hectares are ecologically cultivated with 11 distinct varieties. The harvesting is done manually in boxes of 25 kgs, pallets of 200 kgs or small trailers of 2,500 kgs.

THE 2017 HARVEST

The harvest started on 2nd August and finished on 26th August. It was marked by the drought and episodes of extreme heat in the months of July and August which, together with the drought from the year before, contributed to a lower production. The sanitary condition of the grapes was excellent, and the harvest was done without any meteorological mishaps. The 2017 harvest was very good and as a result will give high quality wines and sparklings.

VARIETIES

45% Xarel·lo, 35% Macabeo and 20% Parellada from our Can Martí estate.

PRODUCTION

The bunches arrive whole at the cellar and, before passing all the grapes over the selection table, a separate soft pressing is done of each variety. We use the Inertys technology in our presses which protects the juice from oxidation during the pressing phase. In winter we do the assemblage of the different varieties, the bottling and afterwards the second fermentation in the bottle.

AGING

A minimum of 60 months in the bottle. Each year we do the poignettage - moving the bottle - with the objective of mixing the yeast with the wine again. In this way we enrich the sparkling wine with aromas and tastes. It is a Brut Nature without the addition of sugars, and the date of disgorging is indicated on the back label.
