DENOMINACIÓ D'ORIGEN

THE CAN MARTÍ ESTATE

The Can Martí estate belongs to the Torelló family since 1395 (14th century) and occupies 135 hectares in Gelida (Alt Penedès). The soils are clay-calcareous (limestone) and 80 hectares are ecologically cultivated with 11 distinct varieties. The harvesting is done manually in boxes of 25 kgs, pallets of 200 kgs or small trailers of 2,500 kgs.

THE 2022 HARVEST

The 2022 harvest on our Can Martí Estate started on 4th August, 5 days earlier than usual because of the drought and the rapid maturing of the earlier varieties, and ended on the 14th of September. Since the end of the spring and throughout the summer we have had 4 severe heatwaves. In 2022 we have had between 20% and 30% less production of grapes – depending on the variety – compared to the previous year due to the intense drought, but that said, the health of the grapes has been impeccable together with a balanced acidity, will let us make great quality still and sparkling wines.

VARIETIES

Merlot 100% from our Can Martí estate.

PRODUCTION

A maceration has been carried out for 12 hours, to extract the desired color and aromas. Very soft pressing, in pneumatic Inertys presses, in nitrogen atmosphere to avoid any oxidation of color and aromas. The grape juice was clarified statically and for 24 hours in concrete tanks and without the addition of any chemical.

PRESENTATIONS

Available in 75 cl and 1,5 litres (Magnum).

TASTING NOTE

Cherry colour wine, dense appearance in the glass, clean, bright, carmine reflections, very seductive and with personality. On the nose, it has a pleasant aromatic intensity, clean and complex, with details that provide fragrance. You can identify a mix of fresh red fruits, with acid touches, vegetables of fruit tree stem, aromas that persist. The entrance in the mouth is present, with firm step. Acidity plays an important role that brings freshness and structure. The sweet balance of the red fruit, the acidity of the green fruit and the bitterness of the stem gives personality.
